

IBRO World Congress of Neuroscience
Special Interest Forum

**FEBRILE SEIZURES and EPILEPSY:
WHAT IS THE LINK?**

Time: 6:30-8:30 pm, Sunday 15th July 2007

Venue: Bellarine room 1/2, Melbourne Convention Centre,
Corner of Flinders and Spencer Streets, Melbourne

Organizers: Prof Tallie Z Baram and Prof Ingrid Scheffer

Speakers:

Tallie Z Baram (University of California, Irvine, USA): “Do Febrile Seizures cause Epilepsy? What we know – and don’t know – now”

Michael Frotscher (University of Freiburg, Germany): “How seizures influence the hippocampus, a critical region for learning and memory”

Ingrid Scheffer (University of Melbourne): “A genetic link and what it means for patients and families”

Format: People with febrile seizures and epilepsy will talk about their experiences. There will be plenty of time for questions. This forum is open to the public free of charge.
