pfizer neuroscience research grants

Pfizer Neuroscience Research Grants are designed to encourage young researchers to enter or continue in the field of neuroscience.

Applications are invited from medical graduates who have obtained specialist qualifications within the last five years, are currently in advanced training, or have returned to research after an appropriate break.

The applicant must be an Australian citizen or permanent resident and the majority of the research must be conducted within Australia.

The grants are open to basic and clinical research across the broad field of neuroscience including, but not necessarily confined to:

[Psychiatry](#) [Pain Medicine](#) [Neurology](#)

The value of each grant will be up to \$44,000 (including GST). Applications for the next round of grants will close 1st May 2008.
